

Inter-departmental Quiz Contest – 100 days TB elimination

As an integral part of the **100 days intensified tuberculosis elimination programme**, Medical Department took the initiative to organize a one of a kind **Inter-department quiz contest**, which was exclusively arranged at SER HQ on 17.03.2025 at the Central Hospital Auditorium GRC.

12 departmental PHODs had actively supported the cause by sending their nominated personnel to participate in the quiz. More than 95 questions were answered by the participants and there was a fierce competition amongst them for their way to the top, which clearly proves that the doctors and staff of the department had successfully disseminated knowledge about TB – prevention, diagnosis, complications, treatment and many more, through awareness campaigns from office-to-office and through huge publicity in the mode of audio & visual messages in places of common public interest apart from putting up Banners, Posters, Walkathons & Nukkad Nataks.

AGM SER as Chief Guest, motivated and appreciated the participants as well as the organizers.
