Automation of Platform lighting – Saving of Energy:

First time in Adra division, to save loss of energy for platform lighting in station premises, automation system was introduced to remove the dependence of human operation of platform lighting. This has been commissioned at Adra, Bankura, Bokaro and Purulia stations for all platforms. With this auto operation of platform lighting, 25% platform lights will get switched on at set time of 18.00 hrs. and switched off at 05.40 hrs. automatically. When there is no train, only 25% lights will glow and with arrival of any coaching train, remaining 75% will get 'ON' to be operated by Dy.SS for the set time of 20 minutes and then SWITCHED OFF AUTOMITICALLY thus reducing 100% glow throughout the night and saving energy consumption.
