

SOUTH EASTERN RAILWAY
MEDICAL DEPARTMENT

GST

Kind Attention! All contractor, Suppliers, Vendors and Service Providers. Please provide your Goods and Services tax (GST) details to South Eastern Railways.

As you may be aware, GST is proposed to be implemented with effect from 1st July 2017 and hence it would be critical for all the stakeholders to be ready for the said change.

In this regard, we understand that you have already obtained GST provisional IDs by enrolling yourself on GST common portal. If you are not yet registered, we wish to inform you that registration for enrolment has been started again by GST authorities from 25th June 2017 and will be continued for 3 months. As a process, we would request you to provide registration details through form provided.

In case you are registered in more than one state and such locations are rendering services to South Eastern Railway, we would request you to share details.

Vendor Registration : All Contractors, Vendor and Suppliers need to migrate to GST in case they are registered under existing taxation law such as Excise Duty, VAT, Service Tax etc. Registration under GST is to be done State wise. Hence in case of a supplier having place of business in any state/UT but supplying his material in West Bengal, Odisha and Jharkhand, he has to be GST registered in all the three states failing which Railway will not be able to take input credit for which his bills will not be passed. All the Vendors/contractors of medical department should be registered and the details should be provided as given in Annexure to respective bill passing officers/consignees.

ATTENTION

All contractor, Suppliers, Vendors and Service Providers.

The GST Roll-out will be with effect from 01.07.2017. For implementation of GST in South Eastern Railway Firms which have not migrated to or registered with GST regime will not be able to participate in any tender of this Railway. Any offer received from the firms without GST registration details will be summararily rejected. All the existing Suppliers, Contractors and Service Providers will have to migrate or get themselves registered under GST in their respective states for continuation of their existing contracts failing which their tenders will be short-closed/terminated. Railway reserves the right to terminate such contracts without assigning any reasons.
