

Procedure followed in decision making process including channel of supervision:

The activities at the ward and OPD levels are managed by Medical Officers of concerned specialties. There are two levels of services at hospital – Medical Officers supervise the all activities pertaining to the curative services. Preventive and curative activities like environment sanitation and health, hygiene immunization are supervised by Health Inspectors, family welfare sister who are under control of ACHD/OPD & ACHD/Health.

All Medical Officers/staff of Central Hospital are under the control of Medical Director. Major decisions like policy decisions, staff welfare, creation of posts, additional assets, creation of facilities, and approval of referral to tie up hospitals etc. are taken by the Medical Director. The decisions which are beyond the schedule of power of the Medical Director are referred to Zonal HQ (Chief Medical Director) for further disposal at higher level.
