Sub: Registration of demand for wagons electronically(e-RD)
Ref: Rates Master Circular/e-RD/2019/0 and its amendments

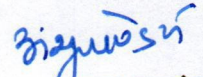

Please refer to Board's circular under reference regarding guidelines for placement of indent in e-RD module. Freight customer while placing indent for wagons has to specify the type of wagon.

It is to state that sometimes other variant of wagon (say, *BCNA in place of BCN*) are supplied as per the availability.

In view of above, it has been decided that in e-RD module, a provision may be made for giving a pop message to the customer at the time of placing indent that "*in case of non availability of the type of wagon indented, its other variant(like.....) will be supplied*".

CRIS will make provision in the system for indicating name of other variant. Say, a customer has indented for BCN, then FOIS will inform name of its other variant like BCNA, BCNHL etc.

This issues in consultation with Traffic Transportation directorate of Railway Board.
